

# Preventing Violence in the Workplace

**Friday, November 13, 2015**

**8:00 AM**

**Miller Center @MCPL—Centereach**

Nearly 2 million American workers report having been victims of workplace violence each year, with many more cases going unreported. In most workplaces where risk factors can be identified, a violent confrontation can be prevented or minimized if employers take appropriate precautions. This presentation will focus on preventative strategies for employers, so that they can minimize the threat of such confrontations, and the legal obligations that may flow from them.
