Readiness Booklet

Pictured: Individuals discuss the new booklet.

The Catastrophe Readiness Clearinghouse at Middle Country Public Library, Centereach, announces that, with funding from the Allstate Foundation, it is releasing A Readiness Booklet for Libraries. The booklet will be used to share resource information and program ideas with libraries on Long Island, based on what the Clearinghouse has learned about disseminating readiness information to the public. The 22-page booklet includes information about free resources; suggested library programs for children, adults and local businesses; local agencies to get more information on disaster preparedness; book lists; and a family readiness checklist.
